Got Some

Pearl Jam

Every night with the lights out where you gone? What's wrong?
Every time you can try but can't turn on, a rock song
I got some if you need it, I got some if you need it
I got some if you need it, I got some if you need it
Get it now, get it on, before its gone, let's everybody carry on, carry on
Get it now, set it off, before its gone, let's everybody carry on, carry on
Precipitation, which side are you on? Are you on the rise, are you falling down?
Let me know, c'mon let's go yeah
I got some if you need it, I got some if you need it
I got some if you need it, I got some if you need it
Get it now, get it on, before its gone, let's everybody carry on, carry on
Turn it up, set it off, before its gone, let's everybody get it on, get it on
This situation, which side are you on? Are you getting out? Are you dropping bombs?
Have you heard of diplomatic resolve? Yeah

Precipitation, which side are you on? Are you on the rise, are you falling down?
Let me know, c'mon let's go Yeah
I got some if you need it
I got some, oh, oh
Get it now, get enough, before its gone, let's everybody carry on, carry on
Turn it up, set it off, before its gone, let's everybody get it on, get it on
This situation, which side are you on? Are you getting out? Are you dropping bombs?
Have you heard of diplomatic resolve? Yeah
Precipitation, which side are you on? Are you drying up, are you a big drop?
Are you a puddle full of detrimental?
Got some, got some
Carry on, carry on
I got some if you need it, I got some if you need it
Carry on, let's go
