

Slow Down

Lachi

Slow Down Wait Wait
Won't you slow down wait
Slow Down Wait Wait
Won't you slow down wait

Why are you in such, such a rush
Won't you sit down and tell me tell me your life
Won't you lay back cuz we've got we've got all night

And I guarantee i've heard worse
And I guarantee I've heard worse

Don't make haste breathe every breathe every breath
Inhale there will be will be some left
Take it slow
Cause you never know
Where are you bound?
Why don't you stick around

Cause I guarantee you're not the first
And i guarantee I've heard worse

So slow down wait wait wait
Wait!
