Strange Noises

Anja Garbarek

There were these two people
Living together in a peculiar house
This house was so peculiar
Because it made such strange noisesThe couple decided that they had to move
They could no longer stand living with such strange noises
So they packed their bags and
Put on their propeller hatsAnd so they flew
High above the ocean and forests and mountains
To find a place
Yeah they flew far into heaven to get some peace
To find a place
That would be quiet
So - quietBut heaven was no permanent place for this silence seeking copule
Because there there were sounds too
Sky sounds
So they left the place
So they left the placeThey flew high above the birds and the clouds and the moon
To find a place
They flew far into the universe to get some peace
To find a place
They flew high above the birds and the clouds and the moon
To find a place
They flew far into the universe to get some peace
To find a place
That would be quiet
Absolutly quietThey flew high above the birds and the clouds and the moon
To find a place
They flew far into the universe to get some peace
To find a placeBut everywhere they went there were these sounds
Strange sounds
Somebody else's sounds
And somebody else's sounds are lot worse to live with than one's ownSo the couple found that they might as well go back home
They took off their propeller hats and
Descended between the starsEast or west - east or west
Home is best - home is best
East or west - east or west
Home is best - home is best
