

O Stella

[PJ Harvey](#)

Stella Marie, youre my star
Stella Marie, youre my star
Stand on ground look up at her
Just hanging in gold stone
Just hanging there face frozeBut I think I see her smiling
I think I see her smiling
I think I see her smiling
I think I see her smilingGo, go, goStella Marie, youre my star
In your blue, blue tavern you light my lantern
Oh Stellas large pink almond face
Its glowing in spaceA place for heroes only
Place for heroes only
Place for heroes only
Place for heroes onlyGo, go, goStella Marie, youre my star
I pin you to my chest
Sell you to the rest
I kiss her gown
Send those angels down to woo me nowI think I see her smiling
Think I see her smiling
Think I see her smiling
Think I see her smilingGo, go, go
Go, go, go
Go, go, go
