

2 Years On

Bee Gees

1 year, 2 years, time goes by
People laugh and people cry Every morning the clock strikes eight
I go to work, I close the gate
And on my way, I sing a song
About my wife, where I belong If the clouds get together
And talk about the weather
If it's rain they anticipate
Baby, make no mistake
Yes, the storm will break
But never me you see 2 years on, 2 years on
But only you can see me
Only you can see me For what I've got
Sir Lancelot was just a dream
And I am not
For I am he with something more
It's you and I reality If the cloud get together
And talk about the weather
If its rain they anticipate
Baby, make no mistake
Yes, the storm will break
But never me you see 2 years on, 2 years on
But only you can see me
Only you can see me
2 years on, 2 years on, ah
