All In

Caleb Lovely

A one-sided romance never lasts
I mean, how could they that's not what they're made for
they need another half
One to say "I love you"
One to say "I need you"
One to say "You're the bee's knees, to me."It's better to be balanced than outta whack
Just listen to my musical love snackBut I'll give you the one man band, but you need to know I can't
Only be the music in your ears
I need to be the song in your heart
The steady groove that soothes your soul
The guitar riff that gives you hope
Don't wanna go our whole life thinkin' that we could have been
When we could spend all our time, now, takin' us all inPeople say "Go out and live a little, so you can write a real song."
Well forget those people anyway
Cause they don't know what I've lived and lost
I do know we choose what we hope for, but we'll never choose its timing
You wanna wrap me up and save me for later like half a Butterfinger at snack timeBut I'll give you the one man band, but you need to know I can't
Only be the music in your ears
I need to be the song in your heart
The steady groove that soothes your soul
The guitar riff that gives you hope
Don't wanna go our whole life thinkin' that we could have been
When we can take all our time, now, cause, Baby, I'm all inYou say you don't know
You say you're not sure
You say you're confused
Oh, you can't say what you need right now
I say "It's our life"
I say "We're the ones gonna make it right"
Now I do knowBut I do know I can't
Only be the music in your ears
I need to be the song in your heart
The steady groove that soothes your soul
The guitar riff that gives you hope
Don't wanna go our whole life thinkin' that we could have been
But we could spend all our time, now, takin' us all inCause, Baby, I'm all in (Wanna be your good boy, wanna be your good boy)
Cause, Baby, I'm all in (Wanna be your good boy, wanna be your good boy)

Cause, Baby, I'm all in (Wanna be your good boy, wanna be your good boy)
Cause, Baby, I'm all in
