Waylon's Guitar

Hank Williams, Jr.

Mr. Cash has got that lic America loves
Hank's songs came direct from Heaven above
But the music, I got straight from the hose's mouth
Yeah, Waylon's guitar had that soundI got my first lesson from him around seventy-three
He didn't lonesome or honoree to me
He was about the nicest guy, I've ever met on the road
Yeah, Waylon's guitar could carry the loadYou've gotta take that E string Hank and turn it down
You've gotta have that half time beat that walks around
Now I love Eric and Keith and there's alot of hot hands around
But Waylon's guitar had that sound, yeahYou've gotta get a Finder Telle and dress it in black
Put leather all around it, so your buckle won't scratch the back
Now I'm into Eric and Keith and there's alot of hot hands around
But Waylons Guitar had that soundYou've gotta get a Finder Telecaster and dress it in black
Put leather all around it, so a cowboy won't scratch the backSays, "You know how them cowboys are"
