Surviving

è•-äºžè»’

I'll stand at your shoulder
I'll keep you running right
Keep you running right
I'll fight in your corner
I'll stay by your side
I'll stay by your side
There's no need now to worry
Our love's still here tomorrow
There ain't no use in crying
For what's keeping us divided
Baby, we're still trying, we're still trying
We're too old to worry
About who's wrong and who is right
Is all so by and by
People need a villain
Someone to pay the price
It keeps them satisfied
There's no need now to worry
I'll still be here tomorrow
There ain't no use in crying
For whats keeping us divided
Baby, we're still trying, we're still trying
Baby, we're still trying
Baby, we're surviving
