

Dead to Me

Too Pure to Die

I will take this fist of rage and find you all alone
Wishing I was standing by your side
I tried to tell you this was the last time
You'd hear me say these words

Don't care, I don't
I hear the dead calling your name
I'll take you where you need to be

Go back to when you wished you were part of us
Go back to when you were just another face in the crowd

No matter what, you'll always be dead to me
I hear the dead calling your name
I'll take you where you need to be

Alone with the corpses so I can't hear your screams of apology
Come on I wanna hear you
Hear you scream

No matter what, you'll be dead to me
