Ideas

Days Away

I had these great ideas
But I don't think they're ever coming back
And even when the words run out I try and argue
This your last goodbye I'll never knowNow you've got me thinking I'm amazing
'Cause I built this all on my own
Go on, tell me what you think before you fake it
And I might believe youThis isn't us
This isn't how it used to be
Now we're just wasting our timeI had these great ideas
That you never heard and never tried to see
And before I even walked away
I forgot the feeling
I guess this is the last you'll see
You'll see of meNow you've got me thinking I'm amazing
'Cause I built this all on my own
Go on and tell me what you think before you fake it
And I might believe youThis isn't us
This isn't how it used to be
Now we're just wasting our time
This isn't us
No I swear, I swear
Now we're just wasting our timeNow you've got me thinking I'm amazing
'Cause I built this all my own
Go on tell me what you think before you fake it
And I might believe youThis isn't us
This isn't how it used to be
Now we're just wasting our time
This isn't use
No I swear, I swear
Now we're just wasting our time
