

# Sunrise

## Extreme

She dont worry about tomorrow, nothing's further from her mind  
She dont need to beg or borrow, time is on her side  
She like coloring the rainbow, never paint between the lines  
She like to chase away the shadow, watch 'em run and hide  
Kiss me in the morning before I open up my eyes  
Won't you kiss me in the morning sunrise?  
See her dancing on the water, washing dreams upon the shore  
A heaven wanting you to call her, a knocking at your door  
She my center of attention, nothing's further from my mind  
Point me in the right direction, sunshine shine your light  
Won't you kiss me in the morning before I open up my  
eyes?  
Won't you kiss me in the morning sunrise, alright, yeah?  
Sunrise kiss and I will follow, sunrise shine your light  
Sunrise filling up the hollow, sunrise, sunrise  
Sunrise kiss and I will follow, sunrise shine your light  
Sunrise filling up the hollow, sunrise, sunrise, sunrise  
I got to get some sunshine, so fine, free your mind  
Sunrise, sunrise  
She my center of attention, nothing's further from my mind  
Point me in the right direction, sunshine, shine your light  
Shine your light, shine it bright as I open up my eyes sunrise  
Kiss me in the morning, open up my eyes sunrise  
Hey, she helped me find my way  
My way, my way, my way  
She helped me find my way, yeah  
She helped me find my way, sunrise, sunrise, oh, oh, oh  
Kiss me in the morning, yeah, hey, hey, hey  
Kiss me in the morning  
Won't you kiss, won't you kiss me in the morning?  
Oh, oh, yeah, yeah, yeah, yeah, yeah  
She helped me find my way
