

# Erryday

Tyga

T-Raww

Do this shit erryday I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day  
Mozart with the Mulsanne  
Most hated with the most chains  
I'm polar bear on my ice game  
You pointing fingers, someone to blame  
I'm sick of shit, nigga, tired of liars  
So high feel like dying  
No reparations, no check for slavery  
My current location somewhere in Vegas  
Man I hope I make it, hope I make it  
God's plan, not even you can save me  
Can't Moussa baby, I'm a Moussa baby  
I need more like a more baby  
New dÃ©cor baby, my house amazin'  
Went so low like a temptation  
Shit gettin' rough, gotta be abrasive  
Signs of danger, gotta keep a banger  
Fuck that, when you ends low can't trust nobody  
My back against the wall and I don't fuck with nobody  
Know somebody caught a body and he haunted, I don't want that  
Count your blessings, stop complainin'  
Be precision with your aimin'  
'Cause I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day (Wish you knew somebody, wish you knew they keep it quiet  
Ain't new to this island, if you knew me you be silent  
Everyday that's a new bitch in my face, what you say  
Pop that Rollie in my case and my space like NASA sponsor)

Pussy monster, chop that nonsense, it get violent round my way  
It's pirates, better make your mind up, start that engine, need you start us  
I'm typically not normal, I ain't atheist so believe in me  
All about my currency, dollar signs and kingery  
(T-Raww)  
The new Messiah, follow me into your freedom  
I can lead you, swear allegiance  
No more pain and grievin'  
Suffer long from dreamin'  
When I know what's up with me and Wiz Khalifa  
But me and Wiz Khalifa smokin' reefer  
Then I'm flyin' private to a feature cause I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane, erryday  
Kilos of gold on erryday, erryday, it's pay day I'm making money nigga erryday, erryday, erryday  
She making promises erryday, erryday, erryday  
I'm sipping somethin' smoking mary jane, mary jane  
Kilos of gold on erryday, erryday, it's pay day
