

Yes I am

Norma Jean Bell

I resent you calling
I resent your voice
I resent that I don't have a choice
 Anywhere I go
 You are always there
 Outside the car or in my hair
 I think I've been here before
 Yes, I've been here before
The last time you locked all the doors
 And I resent you calling
 I resent your voice
I resent that I don't have a choice
 And yes I am wary
 Yes, I am
 I think I told you once
 I think I needed advice
 You were such a help
 That's very nice
I think I've been here before
 Yes, I've been here before
But this time I kick down your door
 And yes I am wary
 Yes, I am wary
