

Lust of the Lost

Famous Last Words

There comes a time when all else fails
she puts the pressure on me how can I prevail?

This weight I cary keeps piling on
He is not the one, love blinds what's right from wrong
What's right from wrong

(CHORUS)

Watch their lust it sparks alive
and it tears me up inside
I'll admit I'm terrified, jealousy is my new guide
I must reside, I must abide
live out my life caught in a lie
but I might die, if I don't try

I try to find as I search my mind
Will you take his hand and leave me behind?
The Isle clears as my hope illudes
He's burning through my fucking solitude!

(CHORUS 1)

Watch their lust it sparks alive
and it tears me up inside
I'll admit I'm terrified, jealousy is my new guide
I must reside, I must abide
live out my life caught in a lie
but I mite die, if I don't try

I'm so sick of this romantic tragedy (this tragedy!)
I'm plunging head first to insanity (insanity!)

He's come to stay and i never said that it was okay
his broken words won't make this right, I can see staright through all of his lies
This Can't be real I dont care how he makes her feel
this is not his place and in any case he can pack up and get our of my face!

(CHORUS 1)

Watch their lust it sparks alive
and it tears me up inside
I'll admit I'm terrified, jealousy is my new guide
I must reside, I must abide

live out my life caught in a lie
but I mite die, if I don't try (x2)

(Die young!
can we stop this wedding?
he is not her other, I'm her only one
Backoff!
he holds her safe and sound
even now, while she's cauught in his whisper!)
