

# Carried Away

Monica da Silva

Miles from nowhere  
State of dreams  
Nothing matters  
Now it seems

I can't keep running, running, running from myself  
I can't keep running, running, running from myself

I'm carried away, carried away, carried away, carried away  
I'm getting nowhere

Lost in motion  
Conscious stream  
Thoughts are scattered  
Still it seems  
That we are weightless  
Gravity has surrendered  
You to me yeah

I can't keep running, running, running from myself  
I can't keep running, running, it's getting hard to help me

Carried away, carried away, carried away, carried away  
Carried away, carried away, carried away, carried away

Why don't I wake up  
Am I gonna wake up  
Why don't I wake up  
Will I ever learn  
Why don't I wake up  
Am I going to wake up  
Why don't I wake up  
All I want is to learn

Carried away, carried away, carried away, carried away  
Carried away, carried away, carried away, carried away

I'm getting nowhere  
I'm getting nowhere  
Why don't I wake up

I'm getting nowhere  
Why don't I wake up  
Why don't I wake up  
Why don't I wake up  
Why don't I wake up
