

Awake

Pillar

Midnight, I've fallen fast asleep
It's daylight, I can't remember anything
There's so many questions that get in the way
About this place, I keep sleeping awake So wake me and tell me what you see
And let me walk with you in the streets
The streets with no name 'cause I feel far away
I always fail to remember Why do I feel like I'm slipping away?
Why do I feel so far away?
Wake me up inside my dreams
Just in time for me to believe Another morning chasing lies
After another evening chasing skies
So make tonight my reality
So tomorrow I remember everything Why do I feel like I'm slipping away?
Why do I feel so far away?
Wake me up inside my dreams
Just in time for me to believe Why do I feel like I'm slipping away?
Why do I feel so far away?
Wake me up inside my dreams
Just in time for me to believe Why do I feel
Like staying awake when I fall asleep?
Why do I feel
Like staying awake when I fall asleep? I don't wanna feel
The pain never ends 'cause it never began
It's hard to believe these things I can't see
So I need to wake up inside my dreams Why do I feel like I'm slipping away?
Why do I feel so far away?
Wake me up inside my dreams
Just in time for me to believe Why do I feel so far away?
Why do I feel I'm slipping away?
Wake me up inside my dreams
Just in time
