

# Parasitic Flesh Resection

## Aborted

[Music: Thijs, Lyrics: Sven]A quick grasp of insanity, cranial tissue in decay  
A force fed tool of apathy i am  
Parasitic life form, infesting my whole being  
Necrotic fungus resecting organs to create...From the realm of the dead I'm fed  
Cracking open the coffin lidDriven by a hunger, unable to grasp  
A chemical reaction that compels me to grab  
The axe, anxiously removed from its shelf  
With an unpredescent joy I brutally hackPsychonecrotic hallucinations,  
as my skull begins to reek  
With goreastic elegance I purge the weakParasitic life form  
Rehashing the dead for its cause  
The chopping of heads  
A daily act of self-enjoymentCranial metamorphosis,  
A forensic decrepit anomaly  
Intestines turn into pulp  
Axe wielding among the stiffs  
Parasitic resection...
