

Right Between The Eyes

Garbage

Graham Nash

My head is hanging heavy with the thoughts of him in mind
 'Tis sacrilege for us to take advantage of the blind
So, tell before you come to me from out of yonder skies
A man's a man who looks a man right between the eyes
 And the pain that we can bring to him
 I don't think he could beat

 Please don't ask me how I know
 I've just been up that street
 And all the people living there
 Have been silenced by their own lies
A man's a man who looks a man right between the eyes
And talking' from experience I know how he would feel
 Waking up and finding that his one love wasn't real
 But the age of truth will soon appear, Aquarius arrives
A man's a man who looks a man right between the eyes
