

# Pay for It

Lloyd Cole

Strange to see you babe, ain't nothing down here free  
Did you lose your ticket? Hope you weren't looking for me  
Now I'm still wearing the scars I got from being your fool  
You messed me up pretty good babe, I didn't mean to rule you Remember when I first saw you babe you were  
looking pretty good  
Said you were looking for love, well then why didn't you?  
You just sat there taking everything you could get  
Never thought one day you might have to pay for it Well did you ever dream baby one day you might fall  
And feel your back against the wall?  
Well did you ever dream baby one day you might crawl?  
Did you ever dream? Now when you're putting on your face I guess that you feel kinda low  
Knowing that you passed your best and you got nothing to show  
Well baby you know just as well as I some fool is gonna fall your way  
Only this time around you might have to pay for it Well did you ever dream baby one day you might fall  
And feel your back against the wall?  
Well did you ever dream baby one day you might crawl?  
That's what I said Did you ever dream, baby  
When you had no need, baby?  
Did you ever dream  
That you might have to pay for it? Did you believe that you might have to pay now  
Well did you ever dream baby one day you might fall  
Yeah and feel your back against the wall?  
Well did you ever dream baby one day you might crawl? Strange to see you baby, mmm strange, very strange  
'Cause you messed me up good  
Yes you messed me up  
Messed me up pretty good now didn't you baby? Mmm, took me a long time to get back here  
But I swear I didn't mean to rule you  
Yeah I swear I didn't mean to rule you  
How do you mend what you didn't mean to do? 'Cause I swear I didn't mean it  
I swear I didn't mean it  
And I swear I didn't, swear I didn't mean to  
Swear I didn't mean to rule you I swear, but you messed me up  
You know that you messed me up good, do you know?  
You messed me up good, yes you did  
Yes you did now now, baby 'Cause I'm looking at you now  
And you're paying now, yes you are now  
I swear, and you never dreamed that and you never dreamed that  
No you never dreamed that, but you're paying now Mmm you never dreamed that  
Mmm I'm looking right at you now

And you're paying now, yes you are
