

# And That's All I Know

**Kevin Drew**

My open lists are yearning for your anxious meal  
Some call it influence while others slowly learn to steal  
And the fictional curtains have turned to glass

So what do you mean, what you want, what do you like? You don't know, you don't know  
When we met, I searched for a better night

Not the first or last to wait, wait behind  
A fire's what I leave with mirrors who decide  
I crush the kiss and dream of you and I

And that's all I know  
You can run but you can never ever live a life,  
You stay and talk about your mother's favorite life  
It's paid for to watch all the worried kind

Say what you want, what do you mean, what do you like? 'Cause you don't know, you don't know  
Her man's a chameleon in my pants,  
She dresses him well though now it's just photographs  
Even though polite, I didn't seem to quite win  
I got the lizard eyes, like a surgical dying gift  
Now it's all I know
