## The Specific Heats

Its11:11make a wish n' make a wish and say x2

Its 11:11 make a wish make a wish and say x1

I hope you come true

Yeah, 1 2 3 4 Soon as you walk through the door

Countin' 5 6 7 8 9 One million thoughts quick hit my mind

(Have you been running) Where have you been lately

Oh, You know it drives me crazy

You know I miss your kiss

Hate to let you see me like this

Because I know when she's on my mind

She's got me all worked up inside

and I know it's going down tonight

because she's moving and its feeling right

Girl you got me feeling right

and I know that you've been hatin' me

let the things I said be history

You can move like that I can move like this

Girl you know its time to make a wish

Make a wish girl

Its11:11make a wish n' make a wish and say x2

Its 11:11 make a wish make a wish and say x1
