

# Only Dating

## Ded Rabbit

Intro:

I was always one for curly hair  
Made a mess of this whole love affair  
Working hard you burn the midnight oil  
Wear your hat is made of tin foil

Verse 1:

Turn up to your door  
In the middle of the night  
Singing ooooooooooh  
Try and go on the run with no flash light

Singing ooooooooooh

Chorus:

She says that we're not in love  
We're only dating  
I say that I'm getting tired of the waiting  
She says that we're not in love  
It makes me sick

Verse 2:

Hit the window with a stone on your birthday  
Saying ooooooooooh

We laugh at the notes and all the word play  
Saying ooooooooooh

Chorus:

She says that we're not in love  
We're only dating  
I say that I'm getting tired of the waiting  
She says that we're not in love  
It makes me sick

Bridge:

Meditation  
Just can't help me anymore  
At the station

It's me you're looking for

Chorus:

She says that we're not in love  
We're only dating  
I say that I'm getting tired of the waiting  
She says that we're not in love  
It makes me sick

Outro:

I was always one for curly hair  
Made a mess of this whole love affair  
Working hard you burn the midnight oil  
Wear your hat is made of tin foil
