

Dangerous Minds

[Ruts DC](#)

we are in the hands of dangerous minds
looking over our shoulder to see what
the future hides

dangerous minds dangerous minds

Im tensed and worried while others ignore the facts
were being led to danger by people made of wax

dangerous minds dangerous minds

they pull us back but those men still discern ??
we can make the move there must be a cure
dont wanna be the victim dont wanna hear or listen ??

dangerous minds dangerous minds

we are in the hands of dangerous minds being led to danger
there must be a cure
dont wanna be the victim
dont wanna even listen ??

dangerous minds dangerous minds
