Say It On The Radio

The Wanted

I see you walk away walk away
So why you looking back at me like that like that
If you're not messing with messing with
Me then why you go on and kiss me like that like that
My head is killing me killing me girl
Are you telling me stay or go

If I can't have you
Why won't you let me go
If you don't want me
Say it on the radio
So go on go on go on just play it
Come on come on come on, you'll never say it

That you don't want me
'Cause you can't let me go me go

Monday and you're all over me
Now it's Friday and you're MIA
And if you're letting go letting go
Me then why you go on and hold me that way that way
The chase is killing me killing me girl
Now I'm telling you stay or go

If I can't have you
Why won't you let me go
If you don't want me
Say it on the radio
So go on go on go on just play it
Come on come on come on, you'll never say it

That you don't want me
'Cause you can't let me go me go

Now I've gone and said it all
Now I'm here out in the open
Don't say another time another place another face

If I can't have you
Why won't you let me go

If you don't want me
Say it on the radio
So go on go on go on just play it
Come on come on come on you'll never say it

That you don't want me
'Cause you can't let me go me go

'Cause you can't let me go
So go on go on go on

Say it on the radio
