Exurbia

Son Volt

Exurbia
Someone's nightmare dream
Exurbia
Someone's psychedelic screamThere is a gaping hole in the sky
For the next generation
Fed by outdated technology
And the largest cement plant in this countryAnd people walking and people conversing
Just work, car, interstate and house
Just work, car, interstate and houseThere is a gaping hole in the sky
For the next generation
Fed by outdated technology
And the largest cement plant in this countryThere is a gaping hole in the sky
For the next generation
Fed by outdated technology
And the largest cement plant in this countryExurbia
Exurbia
