

Put Your Dukes Up John

Arctic Monkeys

Well, just put your dukes up John
May I put your dukes up John
You were preened and sanitized
Struck dumb by good advice Your integrity was bruised
Your celebrity a ruse
They pulled the rug from under
Made way for new pretenders Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere And be a C Y N I C
And be a C Y N I C The profit margin blinds them
They groomed and ostracized him
His calm makes my blood boil
His calm makes my blood boil Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere And be a C Y N I C
Be a C Y N I C Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere Change your tune and change your hair
Or youre not going anywhere
Change your tune and change your hair
Or youre not going anywhere
