

Consume

Career Soldiers

Every product you buy, do you know who you've supported?
Ever dollar spent, do you know who you've exploited?
Every dollar spent compounds capitalist tyranny
Putting worker and consumer into slaveryBuy more shit you don't need
Support the oppressive economy
Buy more shit you don't need
To remain content in this societyWork, consume, sleep, and repeat
We are all slaves to this consumer society
Work, consume, sleep, and repeat
No product they sell you can make your life completeWe buy into the belief that materials make us whole
But we want so bad to find the purpose that they stole
There is no meaning in something you can buy
Don't support this materialist culture, don't swallow their lie
