

# Worry Walks Beside Me

**Michael Kiwanuka**

Worry walks beside me every day  
They say I should run but It's comin my way  
I'll be doin fine if you just leave me behindComing all over and under my skin  
Say if I follow I will die like a king  
I'll be doin fine if you just leave me behindWhat will it take to believe I can run  
What will it take? When will I be done?  
I've been trying  
I find him standing here all the timeI find him trying to steal all that's mineI'll be doin fine if you just leave me  
behindWhat will it take to believe I can run  
What will it take? When will I be done?  
I've been tryingWhat will it take to be free again  
I wanna leave this behind  
What will it take just to see again  
All this is making me blind  
What will it take to believe I can run  
What will it take? When will I be done?  
I've been trying  
How does it feel to be flying away  
How does it feel to believe today  
I've been trying  
Worry walks beside me everyday
