

# City Song

Grace VanderWaal

Fresh laid concrete  
Melodies blowing  
Don't care where we're going  
But the day is wasting  
Just keep moving  
And take it all in The rumble of voices  
Are the bass to our song  
The horns are just on the beat  
Honkin' along  
Let's be the harmony  
But no note is wrong  
And let's take the city  
And make it our song  
Our song  
Our song  
Let's take the city  
And make it our song  
Pencil tapping  
Feet speed walking  
Cars just driving  
Daydream gazing  
Just keep moving  
And take it all in The rumble of voices  
Are the bass to our song  
The horns are just on the beat  
Honkin' along  
Let's be the harmony  
But no note is wrong  
And let's take the city  
And make it our song  
Our song  
Our song  
Let's take the city  
And make it our song  
Everything going on around you  
Just close your eyes and disconnect for a moment or two  
And hear The rumble of voices  
Are the bass to our song  
The horns are just on the beat

Honkin' along  
We'll be the harmony  
But no note is wrong  
And let's take the city  
And make it our song  
Our song  
Our song  
Let's take the city  
And make it our song
