I Love You

Heart

When the night has come and I'm all alone
And I have some time to breathe
So much damage done I guess nobody won
Is it too late to make you seeI love you
Oh darlin' yes I really do
I love you
Oh darlin' yes I really doI know very well how it got this way
I was driftin' on my cloud
There isn't much to tell except you've gone away
And darlin' now I'm reaching outI love you
Let me show you how I really do
I love you
Oh darlin' you gotta know it's trueI wish that I had you now
The way that I had you then
Darlin' I'd take you and hold you and kiss you
Over and over againMay be we can try to get back to that place
When passion made us wild
No more alibis standin' face to face
You will see it in my eyesI love you
Oh my darlin' you should know it's true
I love you
Oh let me tell you how much I really doOh darlin' you know I really do
Oh darlin' yes I really do
