

Don't Cry Baby

[Madeleine Peyroux](#)

Honey please don't cry, listen to me
There's no reason why, we shouldn't agree
If I hurt your feeling, I apologize
You're the only one, that I idealize Don't cry baby don't cry baby dry your eyes
Let's be sweethearts again
You know I didn't mean to
Make you feel blue, honest I'll never do it again Won't you forgive, won't you forget
Do as I ask you to, I never let you regret
If you just start a new you know I'm sorry
Oh so sorry, just don't cry baby there's no one but you Won't you forgive, won't you forget
Do as I ask you to, I'll never let you regret
Just start a new you know I'm sorry
Oh so sorry, don't cry baby there's no one but you
Don't cry baby there's no one but you
