

# Ex's And Oh's

## Atreyu

You took me home  
I drank to much  
Cause of you my liver turns to dust  
Cold rust takes cold creeping cool pain  
Do you understand what I need?  
When you feel your soul drop to the floor  
Like a whole like an open bleeding sore  
Then you'll have bleed like I've bleed  
Then you'll have bleed this all leftSuck me down, its time rock and roll  
Lets hit the bar, lets loose control  
One false move you took me home  
One false move your all aloneBut it looks so good and it feels so nice  
I've paid my price  
I'll cut you out just to hear you scream,  
Get away from me  
And I can feel my heart beat racin'  
As I realize what I must do  
Get away from youshould've turned around like you  
Last time I got a taste of you  
I should've turned around like you  
And I say we're throughYou have haunt me like a plague  
Weakness, we've worked at  
But I digress  
After all this  
You're just like all the restSuck me down, its time rock and roll  
Lets hit the bar, lets loose control  
One false move you took me home  
One false move your all alone
