Come here  
I hear the music, daylight disc  
Three men in black said, "Don't report this"  
"Ascension," and that's all they said  
Sickness now, the hour's dread  
All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news  
Wait, let's move  
I'm in fairy rings and tower beds  
"Don't report this," three men said  
Books by the blameless and by the dead  
King in yellow, queen in red  
All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news  
Dead leaves always give up motion  
I no longer feel the motion  
Where prophecy fails, the fallin' motion  
Don't report this, agents of fortune  
All praise  
He's found the awful truth  
Balthazar  
He's found the saucer news
