You

Kenny Rankin

With luck, with luck we'll see each other
Through each and every day
With love, with love we'll be together
Livin' on by the dayHow can I overdo, what in my heart is true?
Carryin' on a thing for you?Fell in love with you
And like a bird I flew
Outta my tree to sing to youDon't have to understand my way
I said you
You'll be deep inside 'till my dyin' day
Don't you hear me talkin' to you?
I'm in love with youFor while it may astound you
My whole world revolves around you
Talkin' 'bout you
Girl you know I'm talkin', talkin'
Runnin' at the mouth with youNone of my words could say
None of my chords would play
All of the songs I feel for youI love you in every way, how can I go away?
I want to spend every day with youDon't have to understand my way
I said you
You'll be deep inside 'till my dyin' day
Don't you hear me talkin' to you?
Ooh, I'm in love with youFor while it may astound you
My whole world revolves around youAnd I'm talkin' 'bout you
And all the time I spend without you, baby
How could I endure?
Through my loneliness, you've been the cure
And I'm sure that the sun's gonna shine
Just as sure as a heart beats in timeMy wish is only that
You know where love is at
When it's been pointed right at youI hope that you can see
Just what you're doin' to me
I've fallen helplessly for youDon't have to understand my way
I said you
You'll be deep inside 'till my dyin' day
Don't you hear me talking to you?
I'm in love with youFor while it may astound you
My whole world revolves around youTalkin' 'bout you
Talkin', talkin' 'bout you
