

# Open Season

## High Highs

Get on your knees in the fire  
You can leave it  
All in your mind  
It is all in your mind  
It is Call in the backseat a friend  
It is really all in your mind  
It is all in your mind You look so tired of living like a kite  
kite, kite, kite Look at all the trees in your mind  
That are growing all in your mind  
It is all in your mind  
It is Look at all the leaves in the fire  
That you're burning all in your mind  
It is all in your mind  
It is You look so tired of living like a kite  
kite, kite, kite Get on your knees in the fire  
You can leave it all in your mind  
It is all in your mind  
It is
