

Dominic (French Version)

Ramona Lisa

O let them talk
While we lie in the grass
It flatters the world
Even if it won't last
Forgive me if I was too forward too fast
But not being yours would be wasteful
O Dominic
You and me are a perfect disaster
Going our separate ways
In the pale morning after
Dominic
You and me are a perfect disaster
Going our separate ways
In the pale morning after
O let them talk while you reach for my hand
Replacing a drowning idea of a man
And when we get home, with our shoes filled with sand
We'll just sleep, and forget that we're strangers
O Dominic
You and me are a perfect disaster
Going our separate ways
In the pale morning after
Dominic
You and me are a perfect disaster
Going our separate ways
In the pale morning after
And when you step out that door
You'll leave me unafraid of change
And i ...
And when you step out that door
You'll leave me unafraid of change
Dominic...
You and me are a perfect disaster
Going our..
Separate ways in the pale morning after
