

Cosmic Truth

Hexvessel

When we watched
The space ship
That exploded due our souls
The sound from its engines
Blowed apart our world
You stood quietly by my side
As tears were dropped in our eyes
And I knew in this moment the meaning of all
And i knew the meaning of life
This cosmic truth i know
This cosmic truth i know
This cosmic truth i know
This cosmic truth i know
I am the sea I am the storm
We will never die
We'll just change our form cosmic
This cosmic truth i know
This cosmic truth i know
This cosmic truth i know
This cosmic truth i know
You sat quietly by my side
As the camp fires embers died
And i know this moment the meaning of love
And i wasn't afraid to die
