Depend On Myself

Tlc

Guys they always wonder about me
'Cause everything I have is my own
There's no other way you can doubt me
Before I trust you I'll just be here alone
Can I tell ya, can I tell ya, can I tell ya?
Gosh Golly Dern so you still haven't learned
Well I'll be a damn fool
See 'cause it's headaches you've honestly earned me
You're jackin' da plan I'm like who are you man
Peter pan but it's still cool G
Slack off my back slip da hell out
My knee and yo correct dat effect
I'm not feelin dis G
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
Guys they always wonder what's with me
I never let them get in too close
I have my own control
I can't be bought or sold
And I never have to do what I'm told
Yo ladies are you feelin' what I'm sayin'
Well smoke okey doke as if this was a joke
'Cause you think you got balls of the great n' black jaws
But your leg I will poke like an egg crackin' a busted yolk
It's a negative 'cause I won't pause
Till you truthfully see are you
Listenin' to me til you truthfully
See independently like I handle myself
I need nobody else
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that

I can depend on myself
I don't need anybody else

To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
A fist full of fate how much more can I take
This is six minus seven plus one ending none you should go to
Where I'm comin' from take your turn try'na teach
A dumb dumb so it be just a bad memory
Til you truthfully see are you listenin' to me
Til you truthfully see independently
Like I handle myself I need nobody else
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I don't need anybody else
To be on my back like that, to be on my back like that
I can depend on myself
I can depend on myself
I can depend on myself
