

# How Long Is Forever

Willie Nelson

I fell too hard and much too deep in love with you  
And I let you come and go at will it seems  
But you're back again this time you say forever  
But I wonder, just how long forever means  
How long, is forever this time?  
How long, until one night, you don't come home again?  
How long, is forever this time?  
How long, until I'm all alone again?  
People say, I'm foolish when I take you back  
And it could be they're right, but who can say?  
You'll be welcome here within my arms forever  
Even when forever ends for me today  
How long, is forever this time?  
How long, until one night, you don't come home again?  
How long, is forever this time?  
How long, until I'm all alone again?
