

Fatal Charm

Billy Idol

There may be trouble ahead, baby, yeah
There may be teardrops to shed
I'm comin' in from the cold, baby, yeah
Yes, I'm in and I'm warm
You don't forget that, baby, hey Well, I'm comin' in from the storm, believe me, mama
Yes, I'm in from the storm, okay, forget it, mama
And there's a skin and bone, teardrop too
Down on maggies farm Yes, I lived that life, lived it through
And it cut me with my fatal charm
With my fatal charm, oh, shake Yeah, I'm gonna stay on the run
I'm gonna have all the very last fun
You see, they're all gettin' ready
Devil may care and who cares? I care Lady luck, let the dice stay hot
Lady luck sure with every shot
Show him, show him, what I got
What they've not, yeah, I see skin and bone, teardrop too
A-down on maggies farm
Yeah, I lived that place, I lived it
Through and I cut, ooh Skin and bone and teardrop too
Down on maggies farm
Yeah, I lived that life, lived it through
I cut with my fatal charm
I cut them with my fatal charm They don't forget that, baby
They don't forget that, baby
They don't forget that, baby Yeah I'm gonna stay on the run
Yeah, I'm gonna have all the very last fun
Ooh, they're all gettin' ready for the Devil may care
But who cares? I dare Lady luck lettin' the dice stay hot
Lady luck sure with every shot
What we got, nuttin'
That's what we got, nuttin', oh yeah Would you, yeah
Would you yeah?
Would you, yeah
Would you yeah?
