

Young and in Love (Live - Wheels Up 2015 Tour)

Hunter Hayes

I'm coming to see you with skylines and rear view
For streets that I used to know, oh oh oh
I'm finding my way back home I remember the last night your eyes and that goodbye
You whispering "please don't go" oh oh oh
I'm finding my way back home We burn strong and bright
Some fires never die
I learned my lesson one heartbreak too late this time And we were
Living, learning
Laying in a bed that was burning
It's so hard when you're young and in love We were
Trying, and fighting
Holding on, laughing and crying
'Cause that's what you do when you're young and in love The miles made me miss you
But it's worth what I've been through
To learn what I need to know and oh oh oh
My heart knows a way back home But I missed you far and wide
Love ain't black and white
I'm learning from hurting
That you're what I've searched to find Oh and we were just
Living, and learning
Laying in a bed that was burning
It's so hard when you're young and in love We were
Trying, and fighting
Holding on, laughing and crying
'Cause that's what you do when you're young and in love Oh, young and in love, now I can see
The mess that I made, what you mean to me
Ooh I'll make it up, get down on my knees
And I'll do anything to get back what we used to be young
And in love
Young and in love oh
'Cause it's so hard to be young and in love Trying and fighting
Holding on, laughing and crying
Well that's what you do when you're young and in love
Oh, young and in love
Young and in love
Young and in love
When you're young and in love
