

How Does That Feel?

Orianthi

You got a lot of girls that you call your friends
You're always joking baby
At least you pretend
That they don't mean a thing
I know that ain't true
Someone told me something about Geena and you
Now that I'm leaving you baby
How does that feel?
Now that I'm leaving you baby
How does that feel?
I don't care about your money baby
I don't care about your cars
As you can see for yourself
I'm a, I'm a rock n roll star
And while you're with your little black book
Busy making plans
I'm out playing every night
I've got a million fans
Now that I'm leaving you baby
How does that feel?
Now that I'm leaving you baby
How does that feel?
