

Dark Cloud

[Kat Edmonson](#)

Dark cloud, hanging over me
Since when did I become your enemy?
Do you remember we were happy
One fine dayBut now when I see you
I can't be sure of who I'm talking to
The one who's angry
Or the one I knew
One fine dayI've already been forgiven
For all that I do
They settled it up in heaven
Now I'm just waiting on youAnd I'm begging your pardon please
And while you got me down here on my knees
I pray you'll see the forest for the trees,
One fine dayI've already been forgiven
For all that I do
They settled it up in heaven
Now I'm just waiting on youAnd I'm begging your pardon please
And while you got me down here on my knees
I pray you'll see the forest for the trees,
One fine dayDo you remember we were happy?
One fine day
