

# No No No

## Beirut

No no no no no no no

No no no no no no no

No no no no no no no

No no no no no no no Don't know the first thing about who you are

My heart is waiting, taken in from the start

If we don't go now, we won't get very far

Don't know the first thing about who you are

No no no no no no no

No no no no no no no

No no no no no no no

No no no no no no no Don't know the first thing about who you are

My heart is waiting, taken in from the start

If we don't go now, we won't get very far

Don't know the first thing about who you are

No no no no no no no

No no no no no no no

No no no no no no no

No no no no no no no
