

A Boy Like Me

Immature

See a boy like me
Wants to get a girl like you
I wanna get you in the mood
In the mood When I first laid eyes on you
You put me in a trance
I never met no one so fly
I can't believe my eyes My sweet baby, sweet baby
Come over here
And let me be your man, sweet thing
And I will treat you right See a boy like me
Wants to get a girl like you
I wanna get you in the mood
In the mood I realize that we just met
Not tryin' to go to fast
Not tryin' to go to slow
Now see you got the vibe I like Wanna make you my woman tonight
What am I supposed to do baby
'Cause I wanna get
With you sweet thing See a boy like me
Wants to get a girl like you
I wanna get you in the mood
In the mood
