Alive

Muck Sticky

Well I am alive and I want to shout loud
Tell the whole world they cant bother me
I'm floating on a cloud
And I'm never coming down
In the sunshine I will thrive
And I'll keep on being happy cuz I am alive

We would like to thank you for coming to our show
We're really gunna miss you but its' time for us to go
Because like you we have a life and lots and lots of things to do
But we're really really glad we got to spend this time with you

And I'm singin'
{Chores}

We have had alot of fun but now its time to fly
We hope we helped you find the magic sparkle in your eye
It's been very cool of you to have me as your friend
And I know that we'll sing and dance together til the very end

{Chores} x2
