Bitter End

Fit for a King

The words that you said they still ring in my head
Don't you know?
We say goodbye with a tear in our eye
Oh, where'd you go?
It's alright you can sleep tonight
Knowing you'll always live on in a song
Farewell to old friends
Let's raise a glass to the bitter end
Farewell to old friends
Will you be the same when we see you again?
Remember the days when we'd laugh as you'd play
Who'd have known?
The water would come and just take you away
Oh, where'd you go?
It's not alright, I can't sleep tonight
Knowing you should have played on, on and on
Farewell to old friends
Let's raise a glass to the bitter end
Farewell to old friends
Will you forgive me when I see you again?
You had a good time, drinking all of our wine
After the show
We all rode the wave of that crazy parade
Oh, where'd you go?
What happened to the ones we knew
As long as I'm the shiniest star, oh, there you are
Farewell to old friends
Let's raise a glass to the bitter end
Farewell to old friends
We'll still be here when you come 'round again
