

All The King s Men

Wild Beasts

Watch me watch me, the belle of the ball
My heart, my hand and everything I own
And we are the boys, with new shiny shoes
We've seen them all, and we've chosen you
Now no one will find a limit
Girls from Roedean, girls from Shipley,
Girls from Hounslow, girls from Whitby
You're a candied queen
Let me show my darling what that means
Watch me watch me oohhh ooohhhh
Hatch me hatch me, a girl before
Bouncing around behind the bedroom doors
And we are the boys who drape you in jewels
Cut off your hair and throw out your shoes
Because baby you wont need them where you'll be
Girls astride me, girls beneath me
Girls before me, girls between me
You're a birthing machine
Let me show my darling what that means
Ah watch me watch me ooohh ooohhhhhh
Baby, turns out I'm evil in all
my dreams
Girls who'll clothe me, girls who'll feed me
Girls who want me, girls who need me
All you pretty things waiting for somebody
Number my babies and my broken body
