# Back To You

## D-side

You tell me that you're sorry
But you have to say goodbye
And I won't say a single world
Or let you see me cry
You say your heart is breaking
And you can't go on this way
I need you more and more
Everyday
You promised me forever
We'd never be apart
And though it's said a thousand times
You opend up my heart
But wise men never fall in love
So how was I to know
That you would steal my heart
And just go
Chorus:
If I had to run
If I had to fly
Just to find my way back to you
There is nothing I wouldn't do
If I had to cheat
If I had to lie

I would know the reason inside
There's nothing more that I have to do
Now I've found my way
Back to you
I'm waiting for that moment
Believe me when I say
That if you give it one more chance
Love will find a way
So let's get back together
'cos we were meant to be
And your love is so
Precious to me
Chorus
Here we are a little broken hearted
Face to face as if we never parted

Wishing on a star no matter where or how far
Don't you know our love comes tumbling down
Yeah it's tumbling down
Wherever you're not around
Chorus(
