

# Long Way to Go

## Powderfinger

Don't look back, just decide and move on  
'Cause you're wasting my time girl, we just don't get on  
Don't wait here for the weather to change  
Picking over the bones of the love that remains I feel I've got such a long way to go  
We got lost on the winding road  
I feel it's just such a long way through  
So if you let go of me then I'll let go of you Don't resist, just relax and let go  
You can tend to the seed but you can't make it grow  
Don't invent a new way to hold on  
'Cause you're testing my patience you just don't belong This time I'm gone  
This time I'm gone I feel I've got such a long way to go  
We got lost on the winding road  
I feel it's just such a long way through  
So if you let go of me then I'll let go of you
